To currently seeking an opportunity to apply my skills and abilities in a positive and effective manner within an IT organization. I am well equipped to thrive in challenging and demanding work environments, and I approach tasks with a protective mindset, ensuring the best outcomes.

Education

Electronics and Communication Engineering

Karpagam College of Engineering
present
CGPA (8.04 till IV semester)

HSC-STATE BOARD

Murugu Matric Higher Secondary School.
2020 – 2021 | Tiruppur
90.1%

SSLC-STATE BOARD

KPK National Matriculation School.
2018 – 2019 | Tiruppur
86%

Skills

Web Development (HTML,CSS,JS, React.js, Bootstrap, MUI)

Technical Skills (C , Java , DBMS)

Tools (Git , GitHub , VS Code, Eclipse , Postman , IntelliJ IDEA)

Soft Skills (Time Management ,Problem solving ,Versatile Person)

Certificates

HackerRank

CSS , JavaScript , Problem Solving

Udemy

Web Development Course

Great Learning

OOP's in Java

NPTEL

The Joy of Computing Using Python

Projects

LoRa Based Wireless Weather Monitoring Station

A wireless weather monitoring station using LoRa technology employs sensors for temperature, humidity, pressure, wind, and rainfall. The data is processed by a microcontroller and transmitted wirelessly using LoRa transceivers. This compact and efficient system provides comprehensive, remotely accessible weather data.

Domain: **Embedded in C.**

E-COMMERCE Web Application

This project demonstrates my proficiency in frontend development, UI/UX design principles, and my ability to deliver high-quality solutions independently.

Domain: **HTML, CSS, JavaScript & React.js.**

Booking Rerservation Website

present

A MERN stack hotel booking website provides a smooth user experience, powered by React.js for the frontend and Node.js, Express.js, and MongoDB for the backend. It offers intuitive navigation, secure authentication, and efficient booking management, ensuring a reliable platform for travelers to find and reserve accommodations easily.

Domain: **MERN STACK**

Activities

Google DevFest 2023

Actively engaged in informative sessions covering cutting-edge Google technologies, including mobile app development, machine learning, and web technologies.

2023 Dec

Salem

Smart India Hackathon (SIH)

I contributed to our success in being shortlisted form the Intra College Hackathon for SIH. Together, we developed an AI-driven solution for automating valve systems in agricultural irrigation.

2023 Sep

Internship

CODSOFT

Web Development

Gaining practical experience in software development. Focused on tasks including calculator, profile portfolio creation, and landing page design. Applied skills in user interface design, and web development.
